

# Elevated Ice Cream

## Ingredients

- 500 ml/2 cups heavy cream or whipping cream (35% milk fat)
- 1 can sweetened condensed milk
- flavour of your choice - adjust to your preference (infused jam/honey/syrup/caramel, chunks of infused chocolates or infused cookies crumbled are a few ideas to get started)

## Instructions

- In a medium bowl or the bowl of a stand mixer, pour in the heavy cream and mix until you have whip cream consistency.
- Add the sweetened condensed milk and your flavouring if desired.
- Mix until all the ingredients are evenly blended together.
- Pour into a freezer safe container, label and place in the freezer.
- Allow to freeze over several hours.

Prep Time: 10 minutes

Makes approximately 1.5 litres/quarts of ice cream
