## **Coconut Almond Protein Balls**

recipe from LEVO Cookbook

## **Ingredients**

- 2 cups rolled oats
- 1 cup coconut oil
- 1 cup honey
- 1/2 cup crunchy almond butter
- 1 cup unsweetened shredded coconut
- 1/2 cup cacao nibs or semisweet chocolate chips
- 1/2 cup chia seeds
- 1 teaspoon vanilla

## **Instructions**

• Mix all of the ingredients together, until well blended. Put in the freezer for 15 minutes, then remove and roll into golf-ball size rounds, squeezing firmly as you go. Place in an airtight container and store in the fridge.

## **Notes**

You can use infused honey or coconut oil or both if you want an extra punch. You can also use partial infused ingredient and partial non-infused to get to the desired potency.

Dried fruit, hemp seed, flax would also work well in this.

I added 2 scoops of vanilla protein powder to increase the protein content.

I mixed with my hands in a large bowl wearing disposable gloves.
