

LĒVO Chocolate Drops

recipe from LĒVO II Oil Infuser

Ingredients

- 1 cup melting chocolate or chocolate chips
- 2 tablespoons infused butter

Instructions

- Using a double boiler, melt the chocolate and infused butter together.
- Stir the chocolate mixture until smooth and combined.
- Use the droppers to fill the molds.
- Place the molds in the fridge to set until fully hardened.
- Pop out and enjoy!

Notes

I used duck fat in place of butter and it worked great.

Try using a measuring cup with a spout to pour the chocolate into the molds. I found it less messy!
